

Want to kick your old boots to the curb?

NEW PROTECTIVE BOOTS ARE JUST A FEW CLICKS AWAY

Tyndale makes it easy to get new protective boots, with two simple options – both at no cost to you:

1. Buy directly from your company's Tyndale catalog, using company funds.

Why buy from Tyndale?

- No guesswork involved – your catalog includes boots that meet your company's safety policy, all vetted by Tyndale for quality and offered at a negotiated price
- Your available program balance is front and center, so you know exactly what you can spend
- No need to drive to and from a store
- No use of personal funds, unless you choose to buy beyond your remaining balance
- Your boots are covered by Tyndale's product warranty, and Tyndale provides service and support for questions, issues, etc.

2. Buy boots from a store of your choice and get reimbursed by Tyndale.

With this option, the brand, store, style, and price are completely your choice – just make sure to buy boots that comply with your company's safety policy.

You pay for the boots with your own money upfront, and Tyndale pays you back out of your Tyndale program balance. Here's how it works:

- Check your Tyndale program balance, so you know how much you have available to spend
- Buy a pair of boots that meet your company's policy from a store of your choice
- Download the boot reimbursement form from the welcome page in your online account
- Complete the form and ask your manager to sign off
- Upload the signed form and a copy of your purchase receipt to the Boot Reimbursement claim page, within in your online account under "Customer Resources"
- Tyndale promptly processes and issues your reimbursement out of your program balance (limited to the remaining funds you have available)
